

# TRAXION CEREALL

The Vredestein Traxion Cereall is a state-of-the-art radial harvester tyre that incorporates CHO/CFO technology in some sizes.

## FEATURES:

Non-parallel tread lugs ensure optimal self-cleaning ability.

Advanced tread design ensures excellent traction and unbeatable ride comfort.

Large contact surface area ensures reduced soil compaction and minimal rutting.

Certain sizes incorporate IF (Increased Flexion), and CFO (Cyclic Field Operation) technology, making them suitable for high horsepower tractors. These tyres are designed to meet the specific requirements of tractor manufacturers and are able to operate at lower inflation pressures under load.

Tyre Size	Pattern	Load & Speed	Type (TT/TL)	Section Width (mm)	Overall Diameter (mm)	Static Load Radius (mm)	Rolling Circumference (mm)
800/70R32	Traxion Cereall CHO	182 A8	TL	815	1945	865	5765

E&OE. All measurements are based on Vredestein and industry standards. Physical tyre measurements may vary slightly.
